The City of Wichita will pay a delivery charge of \$15.00 for deliveries of 1/4 to 5 cubic yards with one or more stops. The delivery charge will include one stop with all additional stops to be billed at the rate of \$2.50 per stop. The delivery and stop charge will apply in lieu of unloading and standby time charges for all deliveries of five (5) cubic yards and under. Deliveries over 5 cubic yards the City will pay no delivery charges. The City will pay unloading and standby time at the rate of \$20.00 per hour after the first half-hour at the job site. Plant location must be located in Wichita. One plant shall be able to accommodate loading City trucks with the height of 11'9". All mix supplied under this contract must meet FM requirements as set forth in the new Engineering Concrete Specifications.
